

Growing college meets evolved content process.

SUCCESS STORY / HIGHER EDUCATION / TRANSACTION MANAGEMENT

“With ILINX, we have a cutting edge technology that suits our needs perfectly in an easy-to-use package.”

Network Specialist, MiraCosta College

Strategic Initiative

Fast-growing MiraCosta College’s content-management software was falling behind. It required local installs at each workstation and was incompatible with the latest operating systems and browsers. The college needed a secure solution to improve information-handling while reducing IT support costs. Requirements called for a web-based system that could keep pace with evolving technology.

Solution Plan

MiraCosta partnered with the experts at ImageSource to design and implement a comprehensive content-management solution. The team began with ILINX Export to smoothly migrate more than a million documents to ILINX Content Store while extracting information to a universal database. ILINX Capture offered a new pathway for document intake, modernizing the student application process.

Investment Return

The college’s ILINX solution is built for today and ready to meet the needs of the future. Easy data access facilitates collaboration and resource-sharing between departments. Information Services dean Mario Valente estimates that the ILINX solution quickly saved MiraCosta \$150,000 – largely through reduced demand on IT. He notes: “ImageSource was able to bring us out of the dark ages quickly without any downtime.”

ILINX CONTENT STORE

An intuitive, web-based repository for content storage, access, and management from any device. Centralized administration for faster deployment and robust content management.

ILINX EXPORT

Simplify and streamline the extraction, conversion, and migration of data from legacy or line-of-business systems.

Process innovation made easy.

ImageSource makes process innovation easy through advanced solutions built on ILINX, the world’s most flexible process-improvement platform, delivered by a team of experts committed to customer-partner success.
