

Tribal Nation sees double-digit improvement in contracts processing.

SUCCESS STORY / TRIBAL NATIONS / ACCOUNTING AUTOMATION

Washington State Tribal Nation

Strategic Initiative

A Washington Tribal Nation was struggling with its accounting processes – particularly internal approvals, routing for payment, and paying vendors on time. There was little visibility into contracts, licensing, and accurate reporting on spending. And since the audit process was manual, the Tribal Nation was missing out on federal funding opportunities.

Solution Plan

ImageSource worked with the Tribal Nation to define accounting workflows, permissions, and status visibility based on internal and external roles. The ILINX Engage solution was implemented to improve and manage visibility and organize existing and future content. The solution provided unique, user-specific views for everyone participating in accounting and contract execution processes.

Investment Return

The Tribal Nation now allocates its spending more accurately and has recouped additional budget benefits. At least ten percent of previous spending was attributed to incorrect sources, which impacted future funding and planning. The ILINX Engage solution creates better visibility and accounting to ensure federal funds are spent accurately and that services meet project and contract requirements.

ILINX ENGAGE

An intuitive experience that empowers users and managers with an all-up, personalized view of critical business information whenever and wherever they need it.

THE ILINX PLATFORM

A foundational process-improvement platform that empowers people and organizations to automate workflow, extract value, and intelligently share content securely and effectively.

Process innovation made easy.

ImageSource makes process innovation easy through advanced solutions built on ILINX, the world's most flexible process-improvement platform, delivered by a team of experts committed to customer-partner success.
